Sir:

After receipt of the Notice of Allowance and Fee(s) Due and payment of the issue fees, applicants discovered a typographical error in claim 1. Claim 1, line 15 as filed read:

"the composition comprises less than about 10 ppm of pyrophosphate: and", (emphasis added).

In the Amendment and Response file November 30, 2005, line 15 of claim 1 read:

"the composition comprises less than about 1 ppm of pyrophosphate: and"

with no indication that the "about 10 ppm of pyrophosphate" was amended to "about 1 ppm of

pyrophosphate". No such amendment was intended. The change was a typographical error. Applicants request that the typographical error be correct prior to printing of the patent for the present application.

Attached is a correct, version of the claims of the present application, including the amendments entered in the Amendment and Response After Final filed June 1, 2006 and the correction entered via examiners amendment on August 1, 2006.

A listing of the claims begins on page 3.
